BUYER AS REGARDS THIS
MATTER

Breed Characteristics

The Ideal Lleyn

Revised May 2016, and supersedes all previous details of the Lleyn breed

HEAD	Distinctive and feminine; warm white in colour; wide forehead; good length from eye to nose, straight to slightly dished and narrowing towards the nose; bright lively eyes; black nose.
EARS	Medium size and thickness and black spots desirable; base preferably starting from the wool.
NECK	Average length, well set on shoulders
BREAST	Wide and well forward
SHOULDER	Well set.
RIB	Long and well arched.
BACK	Good length
LOIN	Broad; well joined to rump, well set tail
LEGS	Average length, with no wool lower than the hock. Colour warm white.
BONE	Flat.
TAIL	The tail should be docked according to current legal practice.
WOOL	Containing no kemp, of good length, dense and of high quality. Excessive peeling/stripping of wool is discouraged within the breed
RAMS	Hornless.

The aim of the Lleyn Sheep Society is to maintain the Lleyn sheep as a medium sized ewe with highly respected maternal traits which suit today's commercial sheep producer.

THE LLEYN BREED – THE SHEEP OF THE FUTURE

What is so remarkable about this breed?

Thirty years ago it was almost unknown outside the small Lleyn peninsula which stretches out to the sea towards Ireland in the North West corner of Wales, and is now found in every corner of the British Isles and more recently in Ireland

There are very good reasons for the spread and growth of the Lleyn, despite the extreme difficulty experienced by non-Welsh speaking people in pronouncing its name.

The Lleyn ewe is an excellent mother in all respects. She lambs easily, attends to her newborn lambs without any fuss but with great enthusiasm, whether she is an older ewe or a ewe lamb lambing for the first time. She is an excellent milker and new born lambs are remarkably quick getting on their feet and to suckle, particularly important when lambing takes place outside in weather conditions that are not ideal.

A mature Lleyn flock in regular ages will naturally rear a 200% crop of lambs with ease, while the ewe lamb section of the flock, which are very often mated, will result in a “bonus” crop of lambs.

The Lleyn is a naturally healthy breed and this combined with the ability to maintain a “closed” flock, ensures the maintenance of a high health status flock.

Compared with many other breeds, used to produce prime lamb the Lleyn is smaller in size and enables a higher stocking rate to be maintained and a consequent higher sale of lambs per acre, whether bred pure or crossed with a terminal breed sire, the Lleyn produces highly satisfactory carcase lambs, classified “U”s and “R”s, when based on good grassland systems of production, with minimum or nil concentrate use.

The Lleyn ram is also in considerable demand to cross on to other breeds, particularly hill and upland breeds to increase lambing percentages of the resultant breeding ewes, and to improve carcase quality.

The Lleyn is a wonderful ewe, it is little wonder that her fame has, and still is, spreading so rapidly, and that Lleyn breeders are so enthusiastic about her performance.

Lleyn Sheep Society – Conditions of Sale

- This sale is held under the auspices of the Lleyn Sheep Society.
- There are additional conditions over and above the market L.A.A. conditions of sale.
- A complete copy of these conditions are available from the Society office, Market Office and Society website – www.lleynsheep.com
- It is advised you read and understand these conditions before purchasing.

Ram Fertility, Animal Health and Disputes can be seen in paragraphs 22 to 32.

Guidance to buyers

21. No rams or ram lambs shall be sold for a price less than €350 . Ewes/ewe lambs are not subject to restriction and will be sold in Euros.

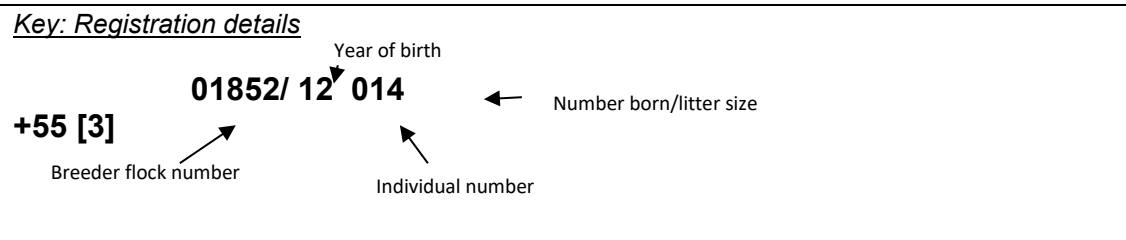

25. If a ram has been used, or semen retained, the owner must declare it in the catalogue or at the time of sale. It is up to the buyer to ascertain this before purchasing.

33. Prospective buyers should please all females have been inspected to the best of the Inspection Panel's ability, it is in your interest to select carefully the sheep that are compatible with your pedigree breeding or commercial requirements. The onus lies with the buyer as regards this matter.

*34. For the benefit of buyers, the definitive year letters are as follows:
2020 – 20; 2021 – 21; 2022 – 22; 2023 – 23, 2024 – 24, 2025 -25*

There is a percentage of Lleyn Flocks **Performance Recording**. Please note the indexes given out at the time of sale are a representation of these flocks only and not the whole breed. It is the responsibility of the prospective buyers to understand this information.

Ram details:

32. If sheep have not been tagged correctly, according to the Society's rules (see para 5), the Purchaser may, within 2 hours of the end of the Sale and before removal of the animals from the Sale premises, return the animals to the Vendor and be refunded the purchase price. However, should any disputes arise which involve Maedi-Visna accredited sheep that have been moved by the Purchaser to the non accredited section, any claim will be void.

GUIDANCE TO BUYERS

33. Prospective buyers should please note that, whilst all female sheep have been inspected to the best of the Inspection Panel's ability, it is in your interest to select carefully the sheep that are compatible with your pedigree breeding or commercial requirements.

34. For the benefit of buyers, the definitive year numbers are as follows:

2021 – 21, **2022** – 22, **2023** - 23, **2024** - 24, **2025**
- 25, **2026** - 26

ANY MEMBER WHO DOES NOT HONOUR THE CONDITIONS OF SALE WILL BE STRUCK OFF THE SOCIETY'S REGISTER.
