

# Incheoch

Flock 894

*Functional Efficient Robust*

*‘Our breeding programme is carefully set up to identify the genetics that work for us -*

*Ewes that are attentive mothers, rear 2 good lambs time and again, are moderate sized and easy to keep, and whose lambs hit spec off grass.’*

## WORKING GENES

12th On Farm Ram Sale  
**THURS 5TH SEPT 2019**  
90 hardy & active  
Texel & Lleyn rams

Incheoch Glencoe (right), sold Reuben Saunders 1200gns - his high maternal ebv, with good wean weight/low mature weight spread gives a well balanced top 10% index, and worm resistance to boot. Dam mating weight 66kg, weaned 80kg (1.20) @100days.
