

## Pedeweb 'on line' flock or herd book User Guide

Pedeweb is an interactive 'on line' flock or herd book. It contains all the information you would normally find in a published flock or herd book with easy search functions, and it gives you the added advantage of being able to make application to change the entry for your own flock or herd.

### To Access Pedeweb

Go to the breed society web site and click on the link to the 'on line flock or herd book'

The first screen is called **Animal Search** and allows you to search for any animal in the database.

Type **your own flock or herd number** in the owner box and click on '**search**' for a full list of animals in your registered ownership.

Type **M** in the sex box to reduce the list to males, type a number in the tag box to reduce the list still further.

Now click on '**Search for Animals**'

**The more information you type into this screen the FEWER animals you will find. Less is more on search screens.**

**Please do not use the browser back button at any time when using Pedeweb**

Here is an example:-

A list of the animals which fit your search description will be displayed. Click on any one of them to see more information – anything in blue is a link and will display more information if clicked on

### 3 . Transfers

Please notify the Society Registry of all sales so that the animals can be transferred into the correct flock/herd in the database.

Select 'Transfers' from the 'manage your own flock' menu. A list of animals in your registered ownership will be displayed. Click on any of the column headings to sort into order. Use the form at the top to reduce the list, for example type M into the sex box to display only males.

Tick those animals which have been sold.

## 5. Survey

In order to keep the society database up to date we may carry out a survey from time to time. This can be completed in 'manage your flock'

**Annual Survey**

The **Grassroots Sheep Society** are in the process of carrying out their Annual Survey.

This survey can be completed on-line until 30/04/2007

If you choose to complete your survey on line click on 'complete survey now'.

A list of all the animals the system thinks you own will be displayed.

**Grassroots Sheep Society**  
Annual Survey

To 'tick' all the animals listed as 'alive', click on this box, you can then tick the animals which are dead or have been sold

**Every animal MUST have a tick in one of the 3 columns**

When complete click on the 'Submit survey to Breed Society' button at the bottom of this page

Click on appropriate headings to change display order, click again to reverse the order

Every animal MUST have a tick in one of the three boxes before the system will allow you to 'submit'. The easiest way to do this is to click on 'tick all animals as alive' then work through the list and change the ones you have sold or are dead, as you go along.

When you are happy with the list click on submit. That will take you to a summary screen:

**Grassroots Sheep Society**  
Annual Survey

You have identified 4 animals alive and in your ownership

If this is correct, please click on the SUBMIT button below to send this information to the Breed Society  
These changes will not show on the web site until the next time the Society updates the data

If this is not correct, click on the button below to return to the previous screen

If you have additional animals in your ownership which have been purchased from another owner please contact the vendor to have the animals transferred into your ownership.

If you have additional animals which have not yet been birth Notified or Registered, then please use the Births option from the Menu to notify the Society of these animals

If you click on submit, the dead animals will be flagged as dead, the sold animals will not longer appear in your flock and can be 'claimed' by the new owners via the registry office.

For help or advice please email the society secretary
