LLEYN SHEEP SOCIETY – CONDITIONS OF SALE

- This sale is held under the auspices of the Lleyn Sheep Society.
- There are additional conditions over and above the market L.A.A. conditions of sale.
- A complete copy of these conditions are available from the Society office, Market Office and Society website – www.lleynsheep.com
- It is advised you read and understand these conditions before purchasing.

Ram Fertility, Animal Health and Disputes can be seen in paragraphs 25 to 35.

Guidance to buyers

24. No rams or ram lambs shall be sold for a price less than 250 guineas (300 euro – Ireland only). Ewes/ewe lambs are not subject to restriction and will be sold in pounds.

28. If a ram has been used, or semen retained, the owner must declare it in the catalogue or at the time of sale. It is up to the buyer to ascertain this before purchasing.

37. Prospective buyers should please all females have been inspected to the best of the Inspection Panel's ability, it is in your interest to select carefully the sheep that are compatible with your pedigree breeding or commercial requirements. The onus lies with the buyer as regards this matter.

38. For the benefit of buyers, the definitive year letters are as follows:
2018 – 18, 2019 -19, 2020 – 20; 2021 – 21; 2022 – 22; 2023 – 23.

There is a percentage of Lley Flocks **Performance Recording**. Please note the indexes given out at the time of sale are a representation of these flocks only and not the whole breed. It is the responsibility of the prospective buyers to understand this information.

Purchasers of MVA Stock

If you have purchased MVA stock from a registered MVA flock to put into your own MVA registered flock, please note that SRUC rules state those animals should be tested within 12 months of purchase.

Gimmering – Accredited ewe lambs may be purchased and sold as accredited gimmers the following year under some circumstances. In summary:

- The ewe lambs may join an established accredited flock. In this case they are treated as added accredited animals (see Rule 6.2), and require an added accredited animal test 6 to 12 months after joining the flock, or before sale if this is earlier.

OR

- The ewe lambs are set up as a separate fully bio secure group. The group retains accreditation, but lose it if they are not all tested by 13 months after establishing the group (the test is due in 6-12 months, plus the one month grace period routinely added to all health certificates). If sold before the group has been established for 13 months, they can be sold as accredited with no additional testing.

LLEYN BREED CHARACTERISTICS

The Ideal Lleyn	
<i>Revised May 2016, and supersedes all previous details of the Lleyn breed</i>	
HEAD	Distinctive and feminine; warm white in colour; wide forehead; good length from eye to nose, straight to slightly dished and narrowing towards the nose; bright lively eyes; black nose.
EARS	Medium size and thickness and black spots desirable; base preferably starting from the wool.
NECK	Average length, well set on shoulders
BREAST	Wide and well forward
SHOULDER	Well set.
RIB	Long and well arched.
BACK	Good length
LOIN	Broad; well joined to rump, well set tail
LEGS	Average length, with no wool lower than the hock. Colour warm white.
BONE	Flat.
TAIL	The tail should be docked according to current practice.
WOOL	Containing no kemp, of good length, dense and of high quality. Excessive peeling/stripping of wool is discouraged within the breed
RAMS	Hornless.
<i>The aim of the Lleyn Sheep Society is to maintain the Lleyn sheep as a medium sized ewe with highly respected maternal traits which suit today's commercial sheep farmer</i>	

Why join the Society?

- Join the other 1,200 people across the UK, Ireland and Europe
- Register ewe lambs with the Society
- Submit rams for ram inspection leading to registration
- Sell registered stock through highly promoted sales
- Receive regular Society newsletters throughout the year
- Receive the annual 200 page glossy hand book direct to your door, full of breed details, information, articles, breeders adverts and a full list of member contact details.
- Advertise on the Society website and within the handbook
- Be part of a great social gathering with a wealth of knowledge to share

Why register your stock with the Society?

- ◆ Sell your stock at the highly promoted Society sales where premium prices can be obtained. Take advantage of the high health status of these sales.
- ◆ Maintain and protect the strong brand of the breed that has been built by yourself and other members, shielding the Lleyn and the reason for her popularity from diminishing
- ◆ Open doors - with more outlet options including a growing international market. It entitles you to proudly show them at a wide range of agricultural shows where you can market your stock through the power of rosettes and trophies

Membership forms can be obtained from the Society website, leaflet or Society representative at the sale. Alternatively call Heather 079666 99930

THE LLEYN BREED — THE SHEEP OF THE FUTURE

What is so remarkable about this breed?

Thirty years ago it was almost unknown outside the small Lleyrn peninsula which stretches out to the sea towards Ireland in the North West corner of Wales, and is now found in every corner of the British Isles and more recently in Ireland.

There are very good reasons for the spread and growth of the Lleyrn, despite the extreme difficulty experienced by non-Welsh speaking people in pronouncing it's name

The Lleyrn ewe is an excellent mother in all respects. She lambs easily, attends to her newborn lambs without any fuss but with great enthusiasm, whether she is an older ewe or a ewe lamb lambing for the first time. She is an excellent milker and new-born lambs are remarkably quick getting on their feet and to suckle, particularly important when lambing takes place outside in weather conditions that are not ideal.

A mature Lleyrn flock in regular ages will naturally rear a 200% crop of lambs with ease, while the ewe lamb section of the flock, which are very often mated, will result in a "bonus" crop of lambs.

The Lleyrn is a naturally healthy breed and this combined with the ability to maintain a "closed" flock, ensures the maintenance of a high health status flock.

Compared with many other breeds, used to produce prime lamb the Lleyrn is smaller in size and enables a higher stocking rate to be maintained and a consequent higher sale of lambs per acre, whether bred pure or crossed with a terminal breed sire, the Lleyrn produces highly satisfactory carcase lambs, classified "U"s and "R" 's, when based on good grassland systems of production, with minimum or nil concentrate use.

The Lleyrn ram is also in considerable demand to cross on to other breeds, particularly hill and upland breeds to increase lambing

percentages of the resultant breeding ewes, and to improve carcass quality.

The Lleyn is a wonderful ewe, it is little wonder that her fame has, and still is, spreading so rapidly, and that Lleyn breeders are so enthusiastic about her performance.
