

## Society Sale Entry Forms 2018

### Completing the form

As a member of the Society you are invited to enter sheep in to this autumn's official Society sales. You can use the enclosed form to enter in to any of the sales but please remember to:

- Clearly write the sale to which you are entering your sheep (use a different form for each sale)
- Please complete and answer all questions as the information will be included in the sales catalogue
- Also remember to sign the entry form otherwise your entry will not be accepted
- If you need extra copies either photo copy or download from the website [www.lleynsheep.com](http://www.lleynsheep.com)

### Registration of sheep

- Ewes and rams presented for sale **must** be registered prior to the closing date. **Ewe lambs must have been registered prior to the day of sale.** The Society does run spot checks to ascertain whether sheep have been registered before the sale.
- **Remember to enclose the pedigree certificates for the rams entered.** As the inspection dates for some venues are later it is anticipated that the pedigree certificates for those yearling rams will not be sent out in time for you to enter – if you want to send in your entry forms before receiving the pedigree certificates could you please give me a ring to hold back those certificates for the rams entered for the sale.

### MVA & Scrapie Paperwork

- In relation to Maedi Visna Accreditation (MVA), there are two sections offered at all UK mainland sales. MVA and non MVA. (Note: Maedi Visna supervised flocks can only sell in non MVA)
- Members selling MVA Sheep, please complete a valid certificate of accreditation issued by SAC and hand it to Auctioneers' staff before unloading your animals. NO MV FORM – NO SALE
- At the Ballymena Sale all sheep must be accompanied by a Scrapie Certificate.

### No Entry Fee

The Society does not charge an entry fee at any Society Sale. Every member is therefore asked to consider carefully before selling their stock from home – please support the official sales where you can!

### Rams

Ram and ram lamb entries are only accepted according to the following sliding scale:

- |             |  |                              |
|-------------|--|------------------------------|
| (i) To sell | 1 ram/ram lamb you must present a minimum of   | 0 ewes/ewe lambs at the Sale |
|             | 2 rams/ram lambs you must present a minimum of | 10 ewes/ewe lambs            |
|             | 3 rams/ram lambs you must present a minimum of | 20 ewes/ewe lambs            |
|             | 4 rams/ram lambs you must present a minimum of | 40 ewes/ewe lambs            |
|             | 5 rams/ram lambs you must present a minimum of | 50 ewes/ewe lambs            |
|             | 6 rams/ram lambs you must present a minimum of | 60 ewes/ewe lambs            |

(ii) SIX rams/ram lambs is the maximum that will be accepted at any one sale per flock.

(iii) There is no limit to the number of females which can be entered.

(iv) In the case that a Vendor is unable to bring females to a sale, then that Vendor will only be allowed to sell one ram at that sale (not the whole consignment). A Vendor presenting a reduced number of females at any one sale must comply with the existing sliding scale for the number of rams allowed (sliding scale as above).

### Entry fee allowing ram/female ratio exemption – only operative at time of entry/before closing date

The current ram-female ratio remains. Up to 3 rams for a sale treat the same. Should the breeder wish to bring 4 - 6 rams without enough females they must pay a £50+vat (€70+vat)/head entry fee for the extra rams, payable to the Society at time of entering (non-refundable). For example, a breeder wishes to bring 6 rams and 20 females – they would pay £150+vat entry fee (3 x £50+vat). Another breeder brings 60 females and 6 rams = no charge or 4 rams and 30 females = £50 + vat (1x£50 + vat).

### Ram Lambs

- If you wish to enter a **ram lamb**, please do so in the usual manner – fill in the enclosed ram lamb registration form and the animal will be inspected on the morning of the sale. You must understand that should this ram lamb fail then he will **not** be allowed to be sold through the ring.
- Please use the same form (enclosed with this letter) if you wish to have your ram lambs inspected at a later date – the deadline for receiving applications to provisionally register ram lambs is 30<sup>th</sup> November, 2018.
- All members will have the opportunity to know the reason why his/her animal(s) was/were rejected by the Panel/Inspector. This information will be available by one of the Officials at the sale, immediately after the Panel/Inspector has/have completed his/their work.

### Ram Guarantees

If a ram has been used, or semen retained, the owner must declare it in the catalogue or at the time of sale. It is up to the buyer to ascertain this before purchasing.

### Shearing, Trimming and colouring of wool

It is brought to the attention of all Vendors that:

- The latest date allowed for shearing of sheep is 15<sup>th</sup> July.
- NO TRIMMING of male or female sheep prior to the sale is allowed.
- The Society discourages artificial colouring of wool.

### Unofficial sales of stock

The practice of selling any sheep from the backs of vehicles at Auctioneers' premises during official Sales is prohibited by the Society. The Auctioneers have agreed that any Vendor selling sheep unofficially at the Society Sales will be asked to leave the premises. You are also reminded that, in pursuing this practice, you are in contravention of Defra (or equivalent) rules.

### Animal Health

Vendors with sheep showing signs of any contagious disease at any sale will be asked to remove the sheep from the market premises immediately and those sheep will not be offered for sale. Where necessary the whole consignment may have to be removed. If a vet is called, and supports the Society decision, the fees incurred will be the responsibility of the vendor.

### Females Batches

Members are encouraged to sell their ewes and ewe lambs in larger lots as purchasers are looking for a number of animals.

### Shows at the sales

Clubs have organised shows before most of the sales – details are available on the website [www.lleynsheep.com](http://www.lleynsheep.com) or by contacting the Club Secretaries direct.

### General Information

- a) Refer to the sales catalogues for sale, penning and show times
- b) The Society encourages members to declare their genotype results of the ram in the comment box on the ram form. (Export from UK requires DEFRA (or equivalent) approved testing).
- c) Enclosed is a polite reminder on sheep health at official Society sales – please have a quick read!

**Sheep Health at Sales**

It's your responsibility that your sheep are in good health

**IT IS UNFAIR TO PUT OTHER BREEDERS SHEEP AT RISK!**

**Polite Notice**

If your sheep are showing signs of a contagious disease (e.g. Orf, New Forest), the 'Society Sale Inspectors' may ask for some or all of your consignment to be removed from the sale.

Note: If this means that you do not have enough females forward to sell the number of rams you have entered, your rams or some of your rams may not be sold.

If you have concerns speak to the Society Office or Society Chairman before bringing your sheep to the sale.

### **Lleyn Sheep Society - Sale Inspector Panel Guidelines**

It is advised the sale inspection panel follows these guidelines when undertaking an inspection at a Lleyn Sheep Society Sale.

#### **WHEN IS THE INSPECTION, AND WHO ARE THE INSPECTORS**

- The inspection panel is made up of the nominated Senior Sales Officer and the nominated members. These nominations are made by the Society Council
- The inspection is to take place from outside the pens prior to the start of the sale

#### **All Female Sheep**

#### **HEALTH**

- Any sheep showing signs of a live contagious disease (e.g. orf, new forest) must be removed from the sale centre, where necessary the whole pen may be removed, i.e. where there is seen to be a high percentage of infected stock in the pen.

#### **TYPE/COSMETIC/STANDARD**

- All sheep must comply with breed standards
- No trimming is allowed
- Colouring is discouraged
- Black patches are to be dealt with on an individual basis at the discretion of the inspection panel
- It is left to the Inspection panel on the day to make the necessary decision. If it is felt that sheep do not fit the necessary expectations, the inspectors can ask the vendor to remove them from the sale.

#### **QUALITY/CONDITION**

- If the inspectors believe that animals are detrimental to the sale, breed and Society, they can ask the vendor to remove those in question from the sale.

#### **TAGGING**

- A random check should be done across the female sheep to ensure they are tagged in accordance with the Society rules (the Society flock number and year of birth **MUST** be printed on the secondary tag or a third tag that could be a Society Tag.)

#### **SLIDING SCALE/ENTRIES FORWARD**

- The inspectors should make a note where possible of the females forward against the number of rams. They should pay special attention to empty pens and large entries of rams.
- If a breeder has to remove females and it means that they do not have enough females forward to present the number of rams entered, the said breeder may be asked to remove some of their rams from the sale.

#### **ACTION TO BE TAKEN**

- Ultimately the Senior Sales Officer and the Inspection panel must make the necessary decision on the day. It is asked that common sense is used so that everyone can get the best out of the Society sales.
- Where necessary the panel may ask for sheep to be removed from the sale
- All offenders must be noted and reported to the Promotions Committee for the October meeting so that where necessary letters of highlight can be sent to try and resolve the issue for another year.
- For long term re-occurring offenders, the Society can undertake flock inspections.

#### **All Rams**

It is advised that the inspection panel observes the rams for health and condition. They should also consider the trimming & colouring rules. The sliding scale rule must be noted. The panel should use its discretion when observing the rams and undertake action where felt necessary.
